Rick Allen became the drummer for Def Leppard at age 15. At the height of worldwide fame in 1984, he had a car accident that changed his life. Rick lost an arm, but turned personal tragedy into spiritual transformation and continued his

musical career. While he was already a hero to millions of young people, he soon added millions of new admirers. Since then Rick has been reaching out and giving support to others all over the globe by sharing his personal experiences and his love of drumming.

Over the past 13 years Rick has reached out to teenage cancer patients, children with special needs, at risk youth in crisis, families of domestic violence and veterans who have served in Vietnam, Desert Storm, Iraq and Afghanistan. He was awarded the Humanitarian Award by Maria Shriver's Best Buddies of CA in 2002 and in 2012, was also awarded the prestigious Wounded Warrior Project's Carry It Forward Award. Rick continues his work helping wounded warriors through Project Resiliency's Warrior Resiliency Program sponsored by his charity foundation the Raven Drum Foundation.

An integral part of Rick's creative life went public in 2012. After years of personal photographic work, Allen ventured into the fine art world with a blockbuster debut collection of abstract artwork built from rhythm. Allen has become a pioneer in the new medium, utilizing drumsticks and rhythm to dictate abstract visuals on canvas.

The debut collection, featuring 300 pieces, quickly sold out in its

initial offering to the public and boasted a sold out exhibition. A second collection, released in 2013, and titled "Rock-On-Canvas" met with a similar exceptional reception and brought forward a relationship with America's leading fine art retailer Wentworth Galleries. The Artist is pleased to present this new Collection: "Legends & Dreams" in 2019.

Rick's art is currently being
